

CLONE 5

2020 Alexander Valley Cabernet Sauvignon

Clone 5 represents the successful culmination of years of critical vineyard planting, vine management and winemaking decisions, making sure that the final flavor profile captures the essence not only of the varietal—but of the land itself.

Sonoma County's imposing Alexander Valley appellation, intersected by the beautiful Russian River, is renowned for producing complex and vibrant cabernets, thanks to its long, hot summers and the cooling effects of the nearby ocean. Our exemplary *Clone 5* cab is no exception: Picked at the peak of ripeness after an ideal, long growing season and aged in premium French oak barrels, this is a wine with pronounced bright berry aromas and layered flavors of plum, subtle olives and tobacco which dovetail with nuanced tannins, leading to a long finish of dark fruits, cedar and coffee.

We recommend pairing with grilled lamb, stuffed portabella mushrooms or beet salad.
